These reports have been written by independent (non Council) consultants. Council is not responsible for the information contained in these reports or the accuracy of them. They are held on file for reference only.

It is important that purchasers also carry out a property file search, to ensure that approved Council plans match what exists on site.

Unauthorised work may require a COA (Certificate of Acceptance) issued by Council.

Dear Sir or Madam,

LETTER OF ACCEPTANCE

Building Consent: T2147
Property Address: 39 Rangitoto Terrace, Milford
Description Of Work: New Dwelling and Relocate Existing House

Final building inspections have been completed in respect of building work under the above building consent.

Building officials are now satisfied on reasonable grounds that the building work has been completed to the approved building consent and to the performance requirements of the New Zealand Building Code, except clause B2 Durability.

The Durability clause, B2 of the New Zealand Building Code confirms the required minimum durability time of materials used on your building.

The Building Regulations 1992 state that material durability times commence on the issue of a Code of Compliance Certificate. Due to the age of completed building work, much of the durability time of materials and systems has now expired. Therefore the Council is unable to issue a Code Compliance Certificate. However the completion of works has been recorded on the Council consent file.

Yours sincerely

Paul Moodie
